About Us

BCI Summit is a private networking organization for the world's leading technology executives. BCI helps members gain insights from their peers, build relationships with Fortune 500 executives, develop partnerships, and learn about critical technologies through in-person gatherings, virtual roundtables, and ongoing executive collaboration programs.

All BCI programs and engagements are closed-door, invite-only with no media, nor recordings.

About Executive Data Council

Executive Data Council (EDC) is an annual networking and collaboration program for Fortune 500 executives. EDC brings together c-level peers across industries and professional disciplines. It brings the members together via online and in-person networking sessions, roundtables, and team collaboration sessions.

EDC Objective

The objective of EDC is to enable members to discover, validate and implement strategies to solve their immediate and long term business and technology challenges in digital transformation, cloud, data and other initiatives. The EDC format enables members to gain insights from their peers, establish professional relationships and form partnerships.

Focus Area

Covering Critical Technologies Including:

- + AI/Machine Learning
- + Digital Transformation
- + Hybrid/Cloud Migration
- + Data Management and Access

Intelligence from world's leading experts

Recent Member-driven Topics Include:

- + Unlocking new revenues with data and AI
- + Machine learning at scale
- + Strategies for quantum-ready enterprise
- + Data cleaning and governance

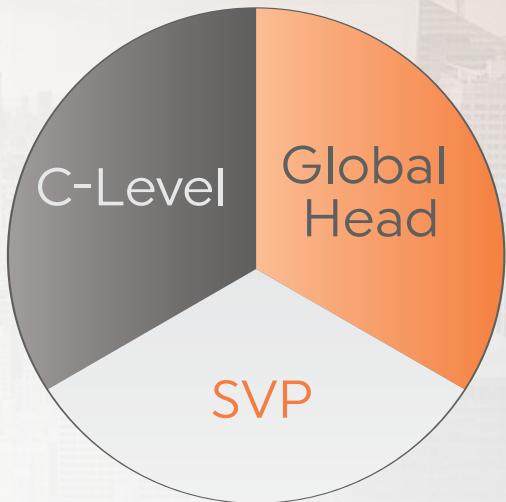

Member Profile

Executives in charge of technology strategy in their organizations

Verticals we cover include:

- Banking
- Energy
- Healthcare
- Pharma
- CPG
- Tech
- Insurance
- Financial services

What to Expect

Roundtables: Every two weeks, EDC members vote on topics to be covered in a roundtable discussion led by world's leading researchers, practitioners and executives.

Team Sessions: Each member is assigned into a team of up to 8 executives. Each session one team member presents a challenge they are working on. The team brainstorms and proposes potential solutions. The member sets an action plan and goals to resolve their challenge. Progress is followed by team members to help further resolving the challenge.

Requirements

Members are required to commit at least 60 minutes per month for team sessions, agree to confidentiality and no recordings policy, and actively participate in each team session to discuss challenges, brainstorm solutions and help fellow team members with their challenges.

How it works

Each member must undergo a three step process:

1. Background vetting and interview by the BCI team
2. Well suited fit with team members in available spot
3. Approved by EDC team

\$ Pricing
